Mr. T. Nelson
Systems Consultant
P. O. Box 1546
Poughkeepsie, New York 12603

Dear Mr. Nelson:

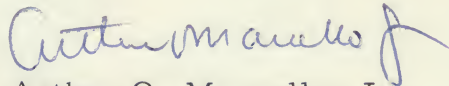

Your interest in receiving our literature is appreciated. The material contained herein describes the operations and products of both our affiliated companies. Leach & Garner Company produces mill form materials, while General Findings Inc. fabricates precision parts. As you can appreciate, these operations complement each other. The manufacture and sale of either type product is conducted by one staff.

Pricing information, is of necessity rendered to a specific bid request. Quotations will be furnished promptly to your requirement. General price lists, since ours is a custom manufacturing activity, are not available.

Our published data is naturally of fairly general nature. Specific technical data can be supplied and amplified as required. If further information is needed, please contact the writer.

Thank you for your interest. We look forward to serving you in the near future.

Very truly yours,

Arthur O. Marcello, Jr.
Manager
